

## Milk Art

### Equipment:

- Full cream milk
- Dinner plate
- Food colouring (at least 2 colours)
- Dish washing liquid
- Cotton buds

### Instructions:

- Pour enough milk in the dinner plate to cover the bottom - about 0.5cm deep. Add a drop of each food colour to the milk.
- Use a clean cotton bud and touch the milk with the tip (do not stir the mix). Did anything happen?
- Place a drop of liquid dish soap on the other end of the cotton bud. Place the soapy end of the cotton bud back in the middle of the milk and hold it there for 10-15 seconds. What happens?
- Add another drop of soap to the tip of the cotton bud and try it again.

### Ideas:

- Try placing the cotton bud at different places in the milk.
- What happens when the cotton bud is removed?
