

## Numeracy Lesson 4: Ordering objects by length. (Outcome MALS 25MG)

Resources: A range of objects found at home (at least 10 objects such as socks or pens).

Instructions: If using socks, hang them on a clothesline all mixed up. Help the student arrange all the socks in shortest to longest order. If using other objects such as pens, help the student organise them in shortest-longest order on the table. See examples below.

shortest sock

longest sock
