

## Drawing Without a Pencil

Equipment and instructions:

- Choose how you are going to draw and:
  - Put a thin layer of **flour, salt, sand or rice in a tray** and draw your picture using your finger or utensil – shake the tray to start a new drawing
  - Place a little **hair gel (add food colour if it is clear) or paint in a zip lock bag** and close it, squeezing out any air. Lay it on a table and gently use your finger to “draw”
  - Spread a thin layer of **shaving foam on a tray** and draw using your finger or a paint brush or cotton bud
  - Roll **playdough** into thin ‘ropes’ and arrange them to make a picture
  - Shape **pipe cleaners** to draw a picture
  - Put **pushpins in a corkboard** to make a drawing
  - Lay **food (fruit, sultanas, pretzels, trail mix)** on a plate to make a picture.

Ideas:

- Try more than one of the ways above to draw
- Practice numbers and letters
- Take a picture of you drawing before it is gone
