

## Cleaning the bathroom

### Why is it important to clean the bathroom?

It is important to clean the bathroom because:

- It gets used every day.
- It gets dirty.
- We put our bodies on it.
- Cleaning helps stop the spread of disease and infections.

### These are the things you will need:

Cloth, vinegar, baking soda, liquid soap and spray bottle.

1 ½ cups of **baking soda**.

½ cup of warm water.

½ cup of liquid soap (you can use powdered or flaked too, just add more water)

2 tablespoons of white **vinegar**

Mix into spray bottle.

## How to clean the bathroom:

### 1. Cleaning the bathroom sink.

**Remove everything off the bathroom sink so it is clear and ready to be cleaned.** Spray the sink, taps and bench all over with the cleaning spray. Wait for 1 minute. Wipe down sink, taps and bench with cleaning cloth.

Wipe around and over the taps.

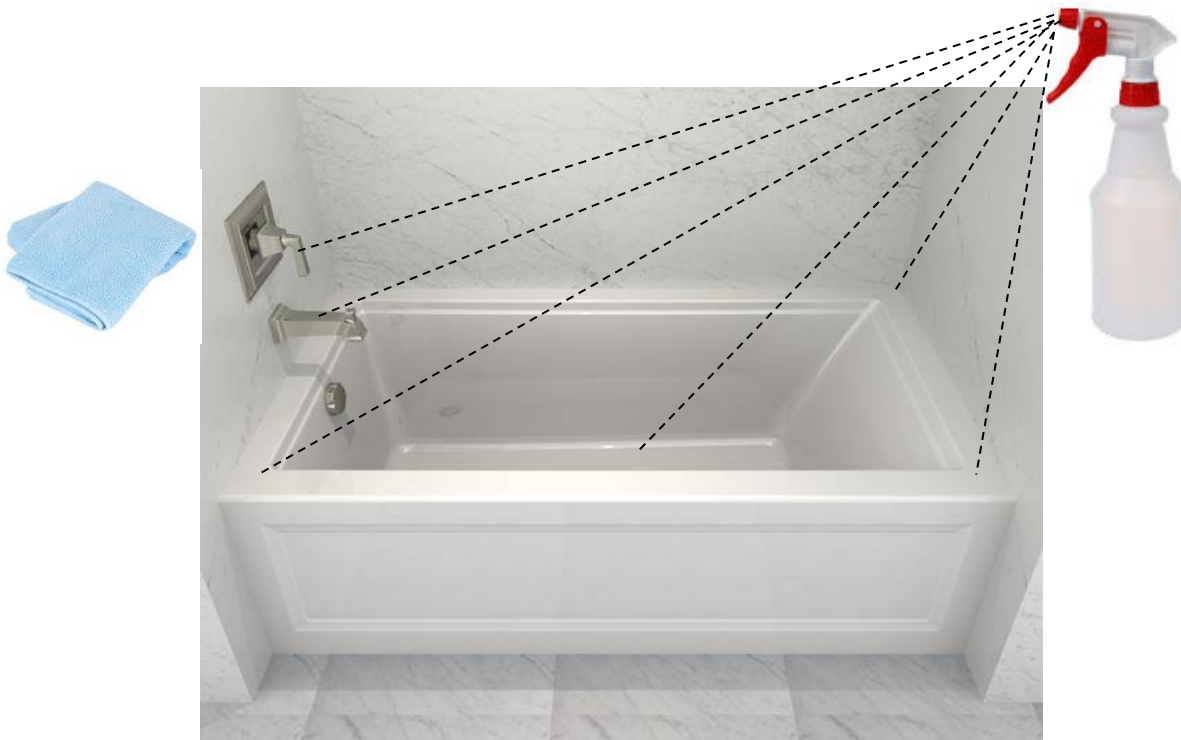

Wipe the cupboard doors.

## 2. Cleaning the bath tub.

**Remove everything off and around the bathtub so it is clear and ready to be cleaned.**

Spray the tub, taps and sides all over with the cleaning spray. Wait for 1 minute. Wipe down tub, taps and sides with cleaning cloth.

Wipe around and over the taps.

Wipe the tiles.

### 3. Cleaning the shower.

**Remove everything off the shower floor and shelves so it is clear and ready to be cleaned.**

Spray the tiles, taps, shelves and glass all over with the cleaning spray. Wait for 1 minute. Wipe down tiles, taps, shelves and glass with cleaning cloth.

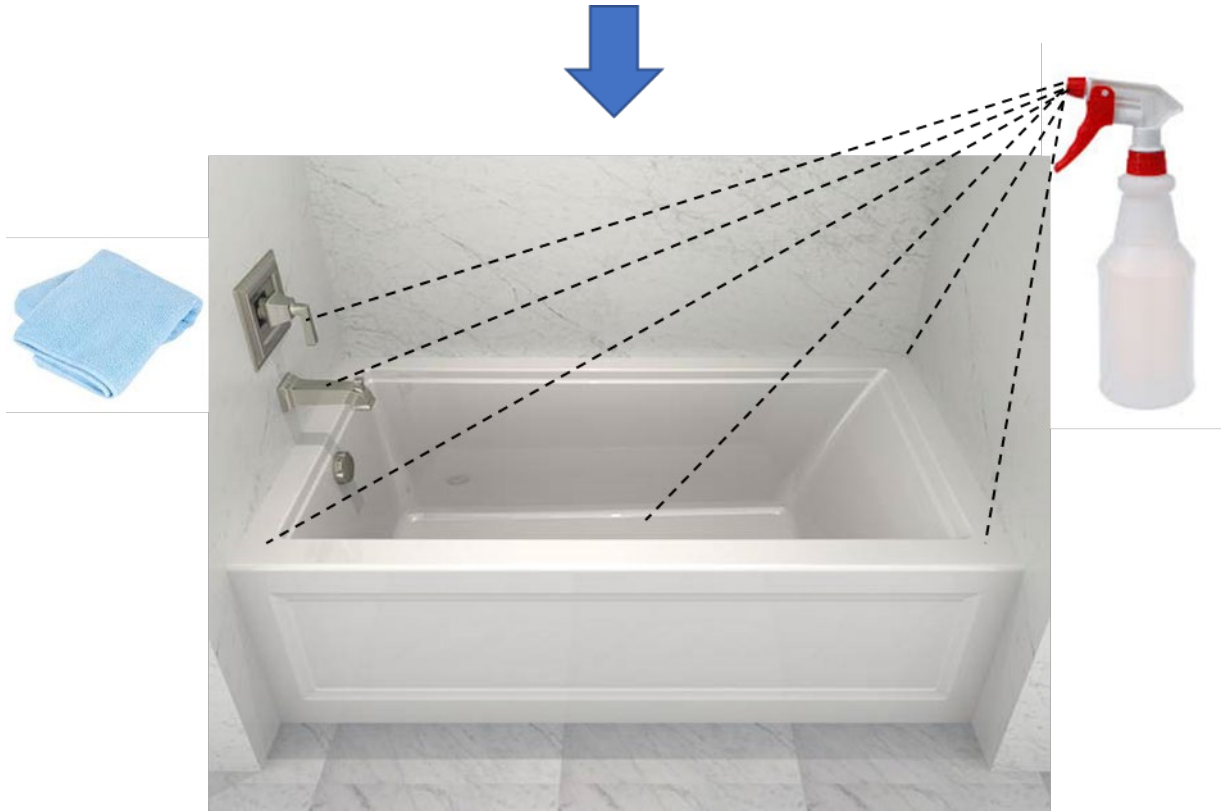

Wipe around and over the taps and shower head.
